right

wrong

! No visible bow wave should form!

Prerequisites:

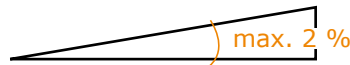

► Tyres:

Vehicle weight, tyre width and required tyre pressure are all related. Therefore, the **required inflation pressure of the authorized tyres** is: **maximum 2.5 bar**

! if the tyres need to be adapted: approval by the vehicle manufacturer is necessary!

► Subsurface:

- maximum slope: 2 %

General framework:

► Driving mode:

- maximum speed = half walking speed (about 2 km/h)
- no abrupt steering actions, do not steer while standing still
- slow acceleration and gentle braking

► **The mat edges must be protected at the beginning and at the end of the alley!**

! **Important note:** vehicle tyres can leave tracks, which are clearly visible especially on a coloured ground (BELMONDO® Style).
